Abdul Moid khan

Full Stack Developer (ReactJS, Next.js, Three.js, GSAP, Laravel)
| WordPress, E-commerce & SEO Specialist | Ex-Aptech Senior
Faculty | Web & Mobile Development Expert
Karachi Division, Sindh, Pakistan

Summary

Hello, my name is Abdul Moid Khan, and I've been a Senior Faculty Member at Aptech Learning Pakistan since August 2021! My expertise spans full-stack development, rocking front-end tech like HTML, CSS, JavaScript, React JS, and Bootstrap , plus backend wizardry with PHP, MySQL, and SQL Server #. I've trained over 1,000 students in web dev (PHP/MySQL), desktop dev (C#/SQL), and Flutter app dev , while mentoring junior faculty and leading workshops on SEO, WordPress, E-commerce, React JS, React Native, Flutter, and web development .

Since January 2019, I've been a Full Stack Developer at Developers Thrill (remote) , where I built a custom CMS with PHP, Ajax, and MySQL, crafted E-commerce sites with WordPress and PHP , and revamped sites to React JS, including their main site (<https://www.developersthrill.org>) . From 2022 to 2023, I designed a real estate CMS for Daamin Properties with multi-user login and admin customization, plus APIs for NAMAZ timings and web scraping from newspapers like Jang, Express, and Dawn . At The Marketeer (2020–2021), I created a real estate marketing site with WordPress, custom PHP, and SEO optimization .

I'm pursuing a BSCS degree at Emaan Institute, Karachi (2022–Present) , after completing Pre-Engineering at Gulzar-e-Hijri Boys College (2021). My certifications include Google's Digital Marketing & E-commerce Professional (2023) , Aptech's ACCP Software Engineering (2017–2020), and Ethical Hacking (2019–2020) . I teach digital marketing at Aptech and honed Photoshop and Illustrator skills via YouTube . Currently, I'm leveling up with Dart, Flutter, and Firebase through online tutorials .

My projects include custom CMS platforms with ledgers, FBR tax calculations, and bulk invoice printing (e.g., <https://>

kulunchtraders.com, <https://mychoice-healthcare.com>) , a WordPress surgical instruments site (<https://chempromart.com>) , and a React JS software house site . I've organized epic tech events like the Code Wave Championship and represented Aptech Gulshan at the global TechWiz coding competition . In my downtime, I play table tennis and cook up a storm , and I'm fluent in English and Urdu #.

As the CEO of Developers Thrill IT Solutions, I am dedicated to delivering innovative and tailored digital solutions to meet the ever-evolving demands of the tech industry. With expertise in various domains, I drive excellence in:

Front-End Development: Crafting visually appealing, responsive, and user-friendly interfaces that enhance user experience and engagement.

WordPress Development: Building dynamic and scalable websites with custom themes and plugins to suit diverse business needs.

SEO Specialist: Optimizing websites to improve search engine rankings, drive organic traffic, and increase online visibility.

Digital Marketing: Designing strategic campaigns to boost brand recognition, generate leads, and maximize ROI through data-driven approaches.

Project Management: Leading teams and managing projects with precision to ensure timely delivery and superior quality.

At Developers Thrill IT Solutions, we are committed to empowering businesses with innovative technology and creative solutions that transform ideas into impactful digital realities.

Social Media Manager

January 2018 - Present (8 years 2 months)

Pakistan

As a Social Media Manager at Developers Thrill IT Solutions, I specialize in driving brand awareness and engagement through strategic digital marketing. My skills include:

Social Media Marketing: Crafting and executing effective campaigns across various platforms to reach the right audience and boost engagement.

Digital Strategy: Developing comprehensive strategies that align with business goals to maximize digital presence and ROI.

Google Ads & Facebook Ads: Managing paid campaigns to drive traffic, increase conversions, and improve brand visibility across Google and social platforms.

Post Designing: Designing eye-catching and on-brand content to captivate audiences, using tools like Canva and Adobe Photoshop.

Video Editing: Creating dynamic and engaging video content with Wondershare Filmora to capture attention and promote brand messaging effectively.

With a strong focus on creativity, data analysis, and trend adaptation, I help businesses elevate their online presence and build meaningful connections with their audience.

Soft Salt Technology (Pvt) Ltd.

6 months

Karāchi, Sindh, Pakistan

Aptech Pakistan

Instructor

July 2021 - May 2025 (3 years 11 months)

Karāchi, Sindh, Pakistan

As a Trainer at APTECH, I provide comprehensive training across a wide range of in-demand technologies to equip students with the skills needed to thrive in the digital world. I cover:

Web Design & Development: From basic HTML, CSS, and JavaScript to advanced concepts like Bootstrap, GSAP, and responsive design, I teach students how to build dynamic, user-friendly websites.

Mobile App Development: Through Flutter and Dart, students learn to create cross-platform mobile apps for both iOS and Android.

Backend Development: I focus on Node.js, Express.js, and MongoDB, providing hands-on experience in backend technologies for building scalable, server-side applications.

Database Management: Training in SQL for relational databases, Supabase, and Firebase for backend services helps students manage data efficiently.

Programming: I cover Java and JavaScript, teaching students fundamental and advanced coding concepts, from basic syntax to frameworks and asynchronous programming.

Data Science: I provide training in Python and R, focusing on data manipulation, statistical analysis, and visualization.

Digital Marketing: With expertise in Google Ads, Facebook/Instagram Ads, and Social Media Management, I guide students in creating and managing successful digital marketing campaigns.

E-Commerce Development: Using WordPress and WooCommerce, students learn to build and manage e-commerce stores, from product setup to payment integration.

Creative Tools: I teach design tools like Adobe Photoshop, Illustrator, and Canva, helping students create high-quality visual content for websites, social media, and marketing materials.

Through my training at APTECH, students gain not only technical proficiency but also the confidence to apply their skills in real-world projects, preparing them for success in the competitive IT landscape.
